

MIND SPARK

SEPTEMBER 2021

EDITION 06

True success is not done for individual glory, but for the commitment and love of the team

Editor's Letter...

We were much excited and a bit nervous when we began to edit as this is our first bulletin as official board members. However, the nervousness turned into excitement when we continued to work for the bulletin.

Our new board team are rocking and they hammer away to initiate new ideas. Everyone work towards the betterment of the club. Our past board team had lead the club in a phenomenal manner and now they have become the mentors for us!

The center page of this bulletin showcases the fabulous efforts of our seniors and their deserving rewards. With their assistance and our hardwork, we too shall carry on the legacy of YSC GCT YOUTH and take it to greater heights.

Creativity is thinking up new things; Innovation is doing new things. We are waiting with bated breath to include the new upheavals that are to be accomplished in the forthcoming days!

Editors,

YY. Mani Bharathi T

GREEN CREST

Plants are absolutely essential to life. None of our basic functions from breathing to eating to drinking would be possible without plants. And also they plays a major role in the modern and luxurious needs too.

While there are many plants growing in the wild, people also cultivate and grow certain plants, bushes and shrubs in their homes or yards as a garden. Apart from making the house look more refreshing and beautiful, it supplements its kitchen supplies. Gardening is actually quite beneficial and, therefore, important to us.

Gardening also helps sharpen

initiated an event in the name of 'GREENCREST' to promote home gardening. Our Community project coordinators had created videos of 15 seconds duration, describing the steps of growing a vegetable from seed preparation to maintaining the plant.

These videos were made into series and each series goes for a week. Starting from Sunday as day-1, reels and shorts were posted for 6 days up to Friday. On Saturday, all the six videos were combined and posted as single video in Igtv, YouTube and Facebook.

The views of the series reached upto 100k in reels. As of now, 20 series were completed. *"If home is the heart , then garden is the heartbeat"*. Follow our youtube channel to make use of the videos.

TEENS TECH TALK 2.0

Technology is becoming more and more important as we move forward, and it is changing our lives in ways that were unimaginable before.

Tech talks at their best should be not only informative, also entertaining. Tech Talks helped us to avoid the issue of knowledge being siloed within one or two people.

On knowing the importance of technology, our Tech Developers Community conducted "TEENS' TECH TALK 2.0" , a webinar to create awareness among the students.

This webinar is conducted every saturday and it is handled especially by the passed out and final year students of GCT. The discussion is about a single topic related to technology and these videos are released as episodes in Youtube. As of now 7 episodes were released and had approximately 40 - 70 views.

More than 50 participants take part in this webinar every week. Google forms with feedback and some technical questions would be circulated to them and accordingly, E- certificates will also be provided to all the participants.

Y'S LIBRARY UPDATION

The Electives

Libraries play a vital role in providing people with reliable content. They encourage and promote the process of learning and grasping knowledge.

Most importantly, libraries are a great platform for making progress. When we get homework in class, the libraries help us with the reference material. This, in turn, progresses our learning capabilities and knowledge. It is also helpful in our overall development.

As the world has become digitized, our youth created the Y's library in which people can browse through the library and get what they are looking for. As it has been almost a year since the inception of y's library, few other books were added to quench the thirst of readers.

While the books of core subjects had been added so far, now the books for professional and open electives were also included. This, in turn, has become more productive for the final and pre-final year students

Y'S SESSION

As meetings, events and official interactions swiftly move to online spaces/platforms due to the covid 19 pandemic, our y's board organized a virtual ice breaking session for the new entrants of the club who were none other than the active members. The aim of this session was to set up a healthy relationship between the board and active members.

The program was titled "Y's Session" which helped the freshers in getting along with each other and the board. The session was held every Wednesday for about a month.

Through this, the active members gave their introduction and also shared their ideas that could be executed in the future projects. While various highlights of the club were discussed, jokes and instant banter cheered everyone up.

More fun events and inspiring speech attracted the youth that increased their interest in doing more projects. Though the pandemic didn't allow the board members to meet and greet the new batch personally, the technology made them forge a bond with the incoming batch of youths.

ACHIEVEMENTS

WESCON - 2021

Coming together is beginning, keeping together is progress and working together is success. On that note, our YSC GCT Youth board team 2020 – 2021 were are rewarded for their hard work during the 41st conference of the west district - Wescon 2021, held at Erode. 13 awards have been granted to honor the work of our Youths.

12. Best Youth Secretary Award for Yy. N. Sathya Priya
13. Outstanding Youth Award for Yy. S. P. Soundariya

CODEATHON

Coding competitions are events where developers are encouraged to build original and functional prototype of an application. This activity happens in a competitive environment where best coders showcase their coding skills.

Finding solutions to problems within a specified time period is not just challenging but it also helps improve problem-solving capabilities in coders who can then translate such gains to real-world situations. To encourage coders our Tech Developers Community planned to conduct an online coding contest in the name of 'CODEATHON'. They used a platform called Hackerrank for this contest.

The event consisted of two rounds, Debug Arena and Code Master. In the 1st round, codes with errors were shared which the participants had to debug and make it run successfully. In the 2nd round, problem statements were given for which the participants must develop the code from Scratch.

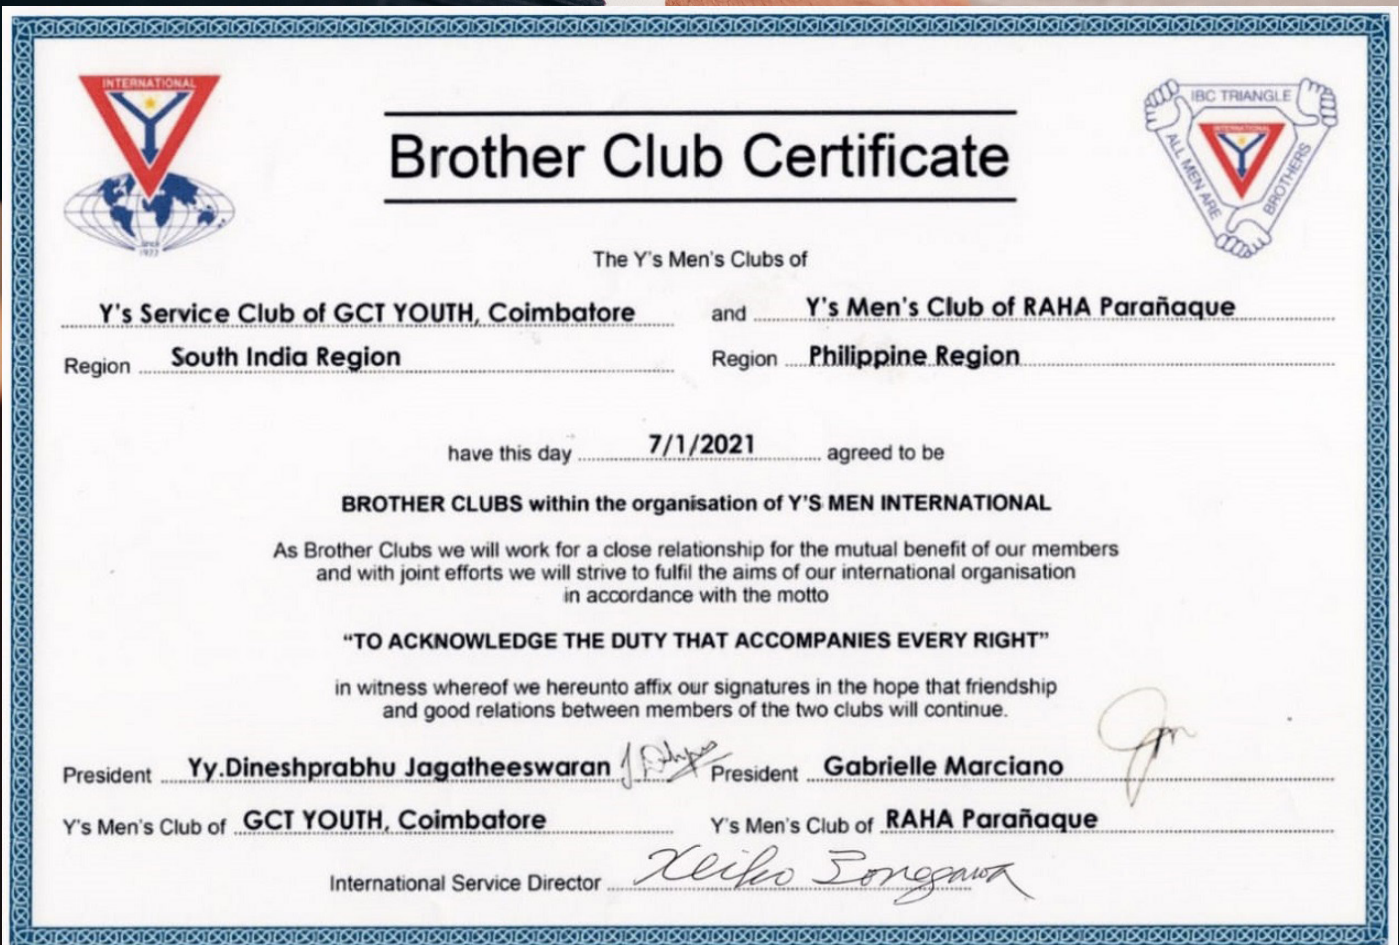

About 51 members participated in the contest and E-certificates has been provided for both the participants and the winner. It was felt quite knowledgeable and interesting by the participants.

BROTHERHOOD CLUB

Brotherhood is about the best thing in the world. There are many different definitions for the word brotherhood. One place where we find brotherhood is in fraternities. This is where the brotherhood is the strongest.

Y's Service Club of GCT Youth, Coimbatore and Y's Men's Club of RAHA Parañaque, Philippines

agreed to be Brother clubs within Y'S MEN INTERNATIONAL and they assured that they shall work for a close relationship for the mutual benefit of the members and with joint efforts will strive to fulfill the aim of the international organization. They also persuaded that friendship and good relations between the members of the two clubs will continue ever.

The certificate is framed with a decorative border. On the left is the Y's Men International logo, and on the right is the IBC Triangle logo. The text is centered and includes the names of the clubs, their regions, the date of agreement, and the signatures of the presidents and the International Service Director.
