

MIND SPARK

OCTOBER 2022 Y'S SERVICE CLUB OF GCT YOUTH EDITION 09

If everyone is moving forward together, then success takes care of itself

Editor's Letter:

This is our second and first bulletin after the official installation. We are very grateful and appreciative of all the positive feedback we received on our first work. Though we're still a little anxious, we assure you of doing our best.

Since the installation, the team has been working diligently to develop and carry out unique and outstanding project ideas. The efforts of the community and technical committee are illustrated through events in the following pages. Our past president's trip to the International youth convention has been the primary point of attention and pride.

There are many more project ideas planned for the coming months, and we hope you will witness each milestone with us. Once again, we thank you for all your support and believe you will continue. We hope you anticipate these releases every month.

QUOTE OF
MONTH15

THE OFFICIAL INSTALLATION

The day of installation is truly one for the books since it was and will be the most memorable day being a Y's youth. This day marks the beginning of a new era of the Y's dom GCT, bringing about new potentials and creative minds.

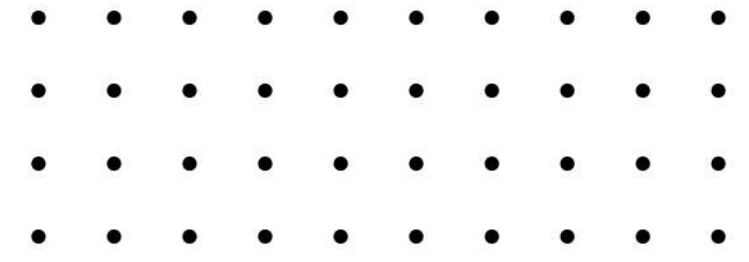

We, the board of 2022-23, officially took our respective posts on August 24, 2022. There were many sections on the installation day. First, we said the Y's Prayer and the Y's Pledge as an foundational ritual. After a quick introduction to Y's Dom, the report from the previous year, and the induction of the new members followed

Finally, the main event of the evening, the installation, took place with the introduction of the new office bearers and ended with the oath-taking. The day was conducted with chief guests Ym. Jacob Varghese, Ym. Thomas J. Biju, Ym. Dinesh Mathias, and Ym. Sakthivel present. Dr. L. Balakrishnan added a felicitation to wrap up the previous section.

Though the day began with considerable tension and concern for the preparation, it finished flawlessly with a perfect balance of seriousness and fun. The member's and our seniors' efforts, whether organizing the event, directing the procedure, or greeting the guests, were the only things that made the day go successfully. With great enthusiasm and determination, we assumed our position to benefit the club.

1ST MEETING

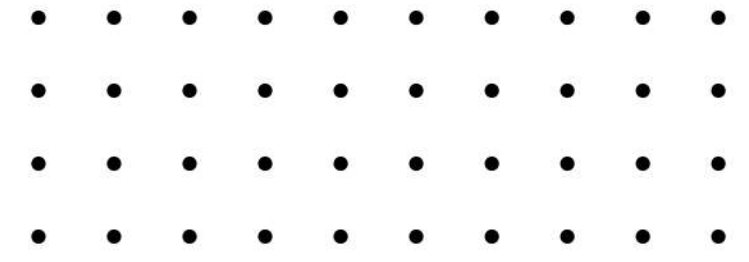

After the installation, we had our first board meeting the following week. We kicked off the gathering by delivering a brief introduction to the Y's Club. We were given a quick overview of the club, its history, its mission, what it stands for, and our responsibilities to it. The former board's activities were also addressed along with the happenings of the current board the previous month.

Following the formal introduction and the reports, the duties of each member were elaborated on and clarified. Each member gave their suggestions for the improvement of the club. Ideas for upcoming projects and activities were addressed, along with ideas for new policies. The group discussion brought about many plans, some of which have been done and displayed in the coming pages. And the rest are in the process of making

Finally, the president concluded the meeting by encouraging us to carry out our responsibilities. After all the necessary talks, we took these lovely photos and ended it effectively.

IYC-2022

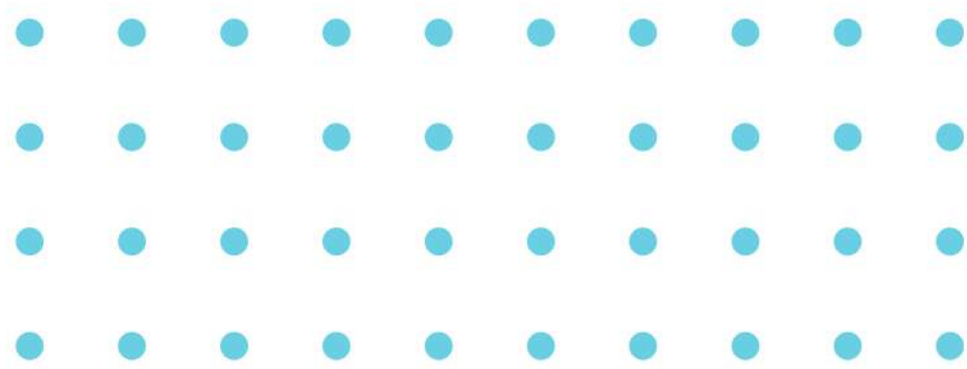

Chiang Mai

The Youth who represented Us

This year marks the 18th international youth convention. The conference was hosted in Chiang Mai, Thailand, and lasted four days, from 4th September to 9th September 2022. Our former president, Yy.Dinesh Prabhu was able to attend it.

Yy. Dinesh Prabhu, RYR, SCIR, was selected to represent the south district of India at the convocation. Not only being a former member of the Y's Service of GCT but also the former president, we are filled with pride that he attended this International gathering. The convention provides a gateway to many opportunities and connections at the global level, and we are delighted that he could experience it.

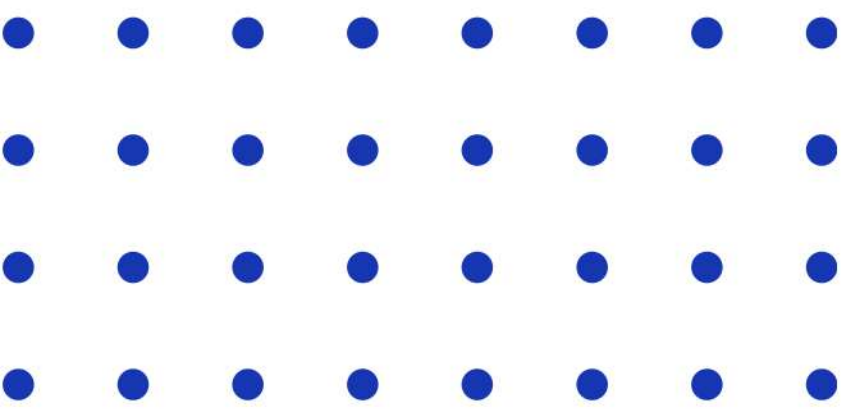

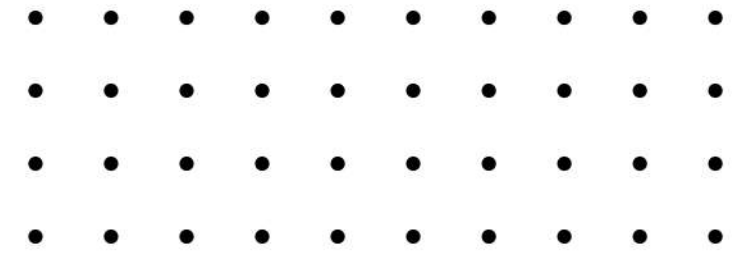

The place of meeting, Chiang Mai, is the second-largest city in Thailand after Bangkok. It is filled with various activities be they cultural, traditional, or artistic. It is one of the most popular tourist destinations in Thailand. And we are certain our former president enjoyed his stay. He was able to meet many signatories during his visit, as can be seen in the photos. On the left is Yy. Dineshprabhu RYR, SCIR, middle Dwight Tomlinson, IP IYR, and Dino Badilla ISD, Youth Involvement & Activities on the right.

We, the present members of the Y's Service Club of GCT, heartily congratulate and hope the best for Yy. Dinesh Prabhu's future ventures.

EEGAI

TRY GIVING WITHOUT EXPECTING

Eegai is a community outreach initiative to provide service to those recovering from spinal cord injuries staying in a rehabilitation center. The event took place at the Anugraha Relief and Rehabilitation Service and Residential Centre for Spinal Cord Injured, located in Masagoundanchettipalayam, on 9 September 2022. There were about 50 patients in the facility, people from all walks of life, including paralympic champions, receiving treatment.

The club members actively engaged in the event to assist and make the residents' day enjoyable. Activities involved cleaning their backyard and conducting interactive sessions to brighten the mood. Cleaning the backyard was the main priority since it was filled with unused items, bushes, and unwanted plants. The board members and other executives from our Y's youth team cleaned up the space and made it a comfortable viewing location for those folks to use. Mr. Ravichandran, the founder of the institution, was very pleased with our work and appreciated the volunteers.

While the cleaning was going on, other Y's members entertained the seniors with fun interactive activities. Activities like self-intro, singing, and responding to movie trivia was part of the event. The locals actively participated in the interactions, which led to conversations about their life experiences. The engagement was enjoyable for us as much as it was for them. As the saying goes, "Kindness is the only service that will remain in people's hearts forever". The kindness expressed that day brought a smile to their faces.

Overall, the project ended successfully and effectively bringing joy to them and our volunteer team. The smiles on their faces spoke miles, and several even requested that the members return whenever possible. The members were able to strengthen their bonds and demonstrate the expression, "Alone we can do so little, together we can accomplish much".

TDC's

TECHNOVA

Update Yourself Technically

The tech developers community of Y's Youth GCT launched a project named "TECHNOVA" on the installation day of the board 2022–2023. The project entails a 365–day process of publishing a daily technical feed. The main initiative and motive of the project are to introduce the current technologies and educate the younger generation on their understanding and application. Through a one-week consecutive release of posters regarding a specific technology, the viewers will be able to comprehend its basics. A series of questions are then released at the end of the week on the technical committee's instagram page. These quizzes test the knowledge gained and help recall the contents of that week.

The outcome of the project has been phenomenal. The project has reached almost 80% of the students of GCT, and it has received positive feedback on all social media platforms. The number of quiz attendees rises each week and has proved beneficial for these technology-filled times. So far, they have been released every week.

Those interested in technical facts and wish to attend questions related to them refer to the ysyouth_tdc Instagram page:https://www.instagram.com/ysyouth_tdc

R2 - D2

Guide To Explore Robotics

Another initiative of the tech developers community was the tech talk series. Tech talk series was the online webinar sessions conducted under the name "R2-D2". Robotics was the theme of this series, and the session was presided over by our speaker, Mr. V. Sanjay kumar, a proud alumnus of the Y's Youth Club of GCT. The event took place via the net at the Google Meet platform on September 7th.

Before the meeting, a google form was circulated to gather all the questions the students might have regarding the topic of robotics. The primary focus of this event is to bring awareness to the robotics field and address the doubts regarding career paths in robotics, along with dispelling students' misconceptions.

Students interested in robotics joined the meeting. And the discussion lasted for an hour. Sanjay Kumar, one of our graduates, shared his vast knowledge and experience on the subject with us, answering all the curious questions. We gave our speaker a memento of our appreciation and ended the meeting with a vote of thanks. The participants left with a good review and an understanding of the field of robotics.

CONNECT AV

LET'S LINK YOUR AADHAR WITH VOTER ID

To link one's Voter ID to their Aadhar card, a program called Connect AV was launched. The linking process will be made mandatory starting in 2023, according to the reports of the meeting that the Collectorate of Coimbatore co-hosted. So through this program, those who had yet not linked their Voter ID to their Aadhar card were aided.

The event took place at the open auditorium of our college, GCT, by the Youth Service Club. The event lasted five days to assist everyone who wanted to link their credentials. There were a total of 50 volunteers that helped out at the event. Depending on the dates of the event, the members were divided into groups. Desks, computers, and other preparations, as well as services, were made in advance.

The key feature of the event was the involvement of our principal, Dr. P.Thamarai, Ph.D. When this idea was proposed she suggested organizing an event where everyone above eighteen applies for Voter ID on behalf of the club. She participated in the event and linked her Aadhar card to her voter identification with some of her family members. Her involvement pleased everyone in the Y's Service Club and the student body.

By the end of the event, nearly fifty-plus students procured the service provided and got their Voter Id linked to their Aadhar card. With the principal's positive feedback, the discussion for phase-II of the event ended the program.

DOER's DEPICTS

TEAM

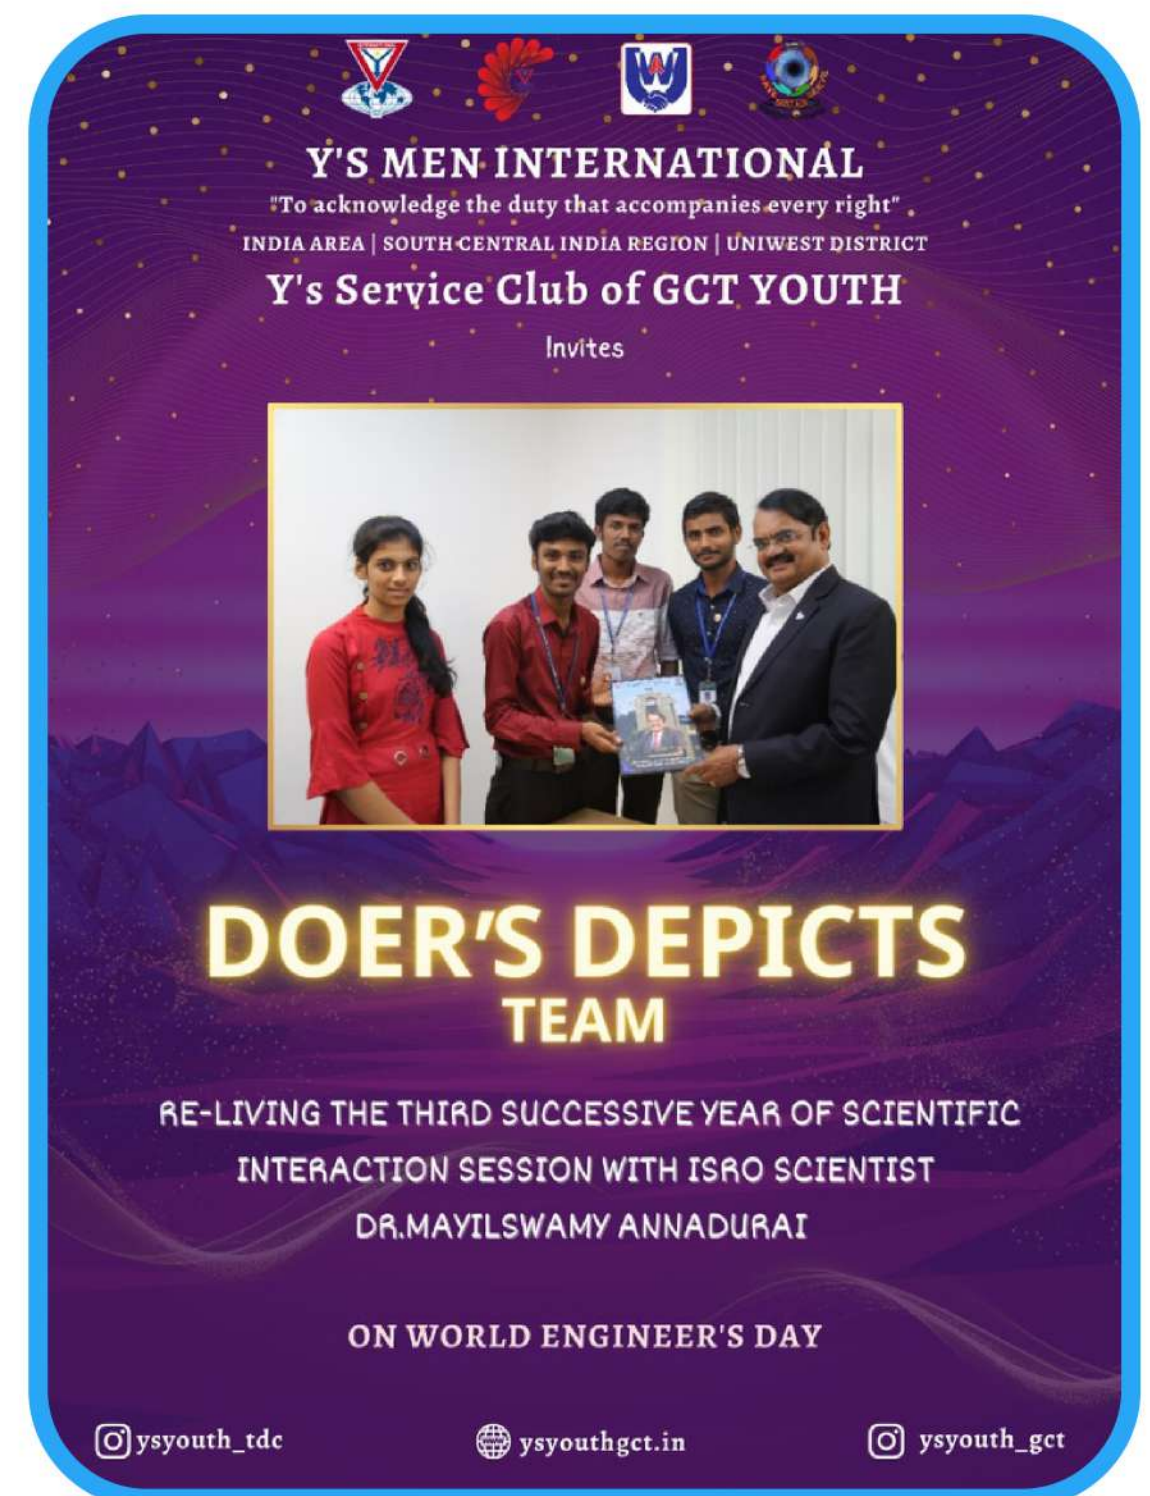

-By ,Yy.Anand Kumar

15th September three years ago, our past charter president Yy. Anandakumar interviewed the former ISRO scientist Dr. Mylswamy Annadurai. He is an elite and prestigious alumnus of GCT who won a Padma Shri. The former club members arranged the scientific interaction session called "Doers Depicts" in which they honored him for his excellent service in space research to our nation on World Engineers Day.

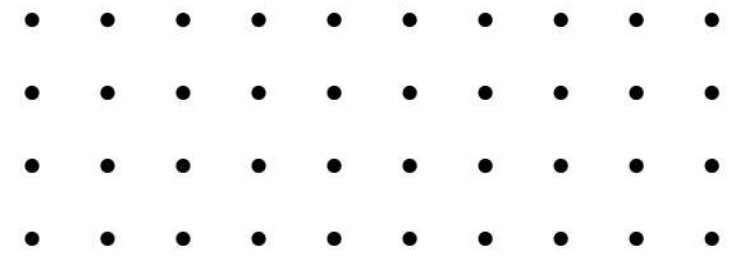

To honor and recall this incredible accomplishment made three years ago, we invited Yy.Anandakumar, and under his supervision and guidance, tech events were formulated. As a part of celebrating this anniversary, we have gifted him that moment in the form of a photo frame. Some of the current members met the charter president for the first time in this meeting and heard about all his achievements gained during his time in Y's Club of GCT.

The evening was lovely, being able to reconnect and re-establish bonds. Similar to this achievement, we hope our seniors can reach further heights.
